

IN3138HD

Professional Full 3D 1080p Projector

Professional Full 3D 1080p Projector

True High Definition 1080p comes to the Office or Classroom

HD is moving out of the house and into a conference room or classroom near you. The IN3138HD beams today's high definition content with 4000 lumens of brightness at work or school.

1080p resolution is THE standard for high quality media and movies. The InFocus IN3138HD 1080p projector displays today's true high definition content and its high resolution is the perfect match for today's 16:9 notebooks.

IN3138HD - FULL 3D 1080p

- Native full HD 1080p (1920 x 1080) resolution
- 4000 ANSI lumens
- 5000:1 contrast ratio
- NVIDIA 3DTV Play, 144Hz 3D triple flash
- 3D support for Blu-ray, cable boxes and more
- HDMI 1.4, DisplayPort, VGA inputs and more
- RJ45 network connection
- Screen trigger
- VGA and variable audio out

Audio

The IN3138HD features a 10W on-board speaker that can fill most meeting or class rooms. No additional audio equipment is required.

Portable or installed

The IN3138HD projector's light weight, high brightness, strong audio, and numerous connectivity options means it will be ready for any situation. The same features, including its RJ45 networking port, make it a strong candidate for installation too.

Impressive image quality

With up to 4000 lumens, high contrast, 1920 x 1080 resolution, six-segment color wheel, and BrilliantColor™ DLP imaging, the IN3138HD projects big, bright, colorful HD images with the lights on and the blinds open.

3D

The IN3138HD supports multiple forms of 3D – including HDMI, Blu-Ray, 3D broadcasting, video games and NVIDIA

3DTV PC connectivity – in 1080p Full-HD for your maximum viewing pleasure. Compatible with 144Hz DLP Link™ 3D glasses.

3D Triple Flash

The IN3138HD uses the latest Texas Instruments DLP® Dark Chip 3 technology and drivers (DLP 0.65" 1080P s600 DC3) and incorporates 3D Triple Flash technology.

3D Triple Flash triples the normal 3D frame

rate of 48 Hz (24 for the right eye and 24 for the left) to 144 Hz, which gives you a deeper, more immersive 3D experience.

Connectivity

VGA x 2 RS232

HDMI 1.4 3.5mm audio in

DisplayPort RCA stereo audio in

S-Video 3.5mm audio out

Composite video Monitor Out (VGA)

RJ45 12v trigger

Connect to the latest devices

This projector is loaded with connectivity options, including HDMI and DisplayPort. Project from PCs, Macs, video sources, tablets and smartphones. The IN3138HD with native 1080p resolution projects high definition video and widescreen notebooks at full resolution without scaling.

DisplayPort provides the fastest refresh rates, the deepest color depths and the highest fidelity with near zero latency. Plus, it not only connects backwards to older technologies, it is designed to accommodate future advances too.

Networked support

With the IN3138HD, your IT manager and tech team can manage and control the projector the same way as a printer—remotely. That cuts time and cost for routine tasks such as troubleshooting and maintenance. And when presenters need tech support, they can get it instantly through the network.

Digital control

Connect to and control your IN3138HD projector via your IT network with Crestron Roomview and AMX Device Discovery. Roomview enables instant, intuitive operation of your projector with no need for a control processor or custom programming.

You can also use an AMX controller to detect your IN3138HD projector dynamically and configure it with the correct driver for remote control.
